Awards: The Weimaraner Club of America offers a Dark Green Rosette to each dog passing the Tracking Dog Test or Tracking Dog Excellent Test.

The Tracking Test is for dogs not less than six months old. With the entry form in the TD Test of a dog which has not passed a "Tracking Test," there must be filed a Certification Statement by a person who is accredited by the AKC to judge a "Tracking Test," that the dog is considered by the judge to be ready for such a test. An exhibitor may enter more than one dog. Entries without a TD or TDX title will be given preference for each test. Note: If the limit for entries is not reached in one test and the limit is exceeded in the other test, the number of tracks will be exchanged up to the limit set by the AKC Tracking Regulations.

The Variable Surface Tracking Test (VST) shall be for dogs which have earned the TD or TDX title. Entries not holding a VST title shall be given preference for entry in the test by the Tracking Test Secretary.

The Tracking Dog Test will be limited to 4 Weimaraners; the Tracking Dog Excellent Test will be limited to 4 Weimaraners; and the Variable Surface Tracking Test will be limited to 7 Weimaraners. If the limit in any of the three tests is not reached in Weimaraners, other breeds may enter using the following procedure: Draw (1) Weimaraners without a title, Draw (2) Weimaraners with a title, Draw (3) Other breeds without a title, Draw (4) Other breeds with a title. Bitches in season may participate (refer to AKC Tracking Regulations, Chapter 2, Section 8, and notify Test Secretary prior to the drawing for track order on the day of the test).

Note: Due to time and distance limitations, a handler entered in the VST test may not also handle a dog in the TD or TDX test.

There will be no actual scores for TD or TDX Tests, but dog will be rated "Passed" or "Failed" and TD, TDX or VST certificate will be issued by AKC confirming all dogs rated "Passed".

Telegraph, telephone, and unsigned entries cannot be accepted. Entries not on official AKC Entry Forms and photocopies of entry forms without Agreement and Rules on the reverse side of the Official AKC Entry Form are NOT ACCEPTABLE. Entries sent by overnight delivery service MUST include signature release.

In accordance with the AKC Obedience Regulations (Chapter 1, Section 4), entries in this TD/TDX/VST tests will be accepted up until the official closing date, even though the advertised limit has been reached. A drawing will be held at Chicago Public Library, Edgebrook Branch, 5331 W. Devon Avenue, Chicago IL 60646 on May 2, 2008 at 8:00 p.m. to determine which entries will participate in the test. When the advertised limit has been drawn, all remaining entries, subject to the same preferences set forth above, will be similarly drawn and assigned a position on an alternate list. The Test Secretary will then notify all entries of the results of the draw. Entries will be acknowledged with a draw number and map and directions to the test site. There will be no drawing if the advertised limit is not reached.

In the event that an accepted entry is absent on the day of the test, it will be the responsibility of the Test Secretary to determine if alternates are present, and to determine, by their position on the Alternate List, which alternates shall participate. NO entry fee will be refunded except that of an alternate who does not participate or an entry who withdraws if an alternate is available to take their place and whose entry fee will be refunded within seven days following the test.

The assignment of dogs to the tracks, by the drawing of lots, is the responsibility of the judges.

Dr. Claudia Orlandi presents PRACTICAL CANINE ANATOMY SEMINAR
Tuesday evening, **May 27, 2008** - Pre-registration Only - \$45.00

Designed to be an introduction for the novice and a review for experienced judges and breeders. Successful breeding and judging draws upon talents that are both science and art. The science of judging is a working knowledge of canine anatomy; the art of judging is having an "eye for a dog," or the ability to correctly and easily evaluate the dog as one piece. Practical Canine Anatomy is guided by science and art and takes a lay person's approach to a potentially complex subject.
